## Notes

- This keyboard follows the Canadian French layout as its base.
- The underline accent   is typed with the **Equals key** =. Please use this key instead of your word processor's underlining formatting. It is both more stable and more convenient.
- All accents are typed after the base character: è is typed **Grave** then **e**.
- All changed keys can type their original value by holding down the **Right-Alt** or **Option key**. *Equals* is typed **Right-Alt+=** (Windows) **Option+=** (Mac).
