Control	Alt		Alt	Control
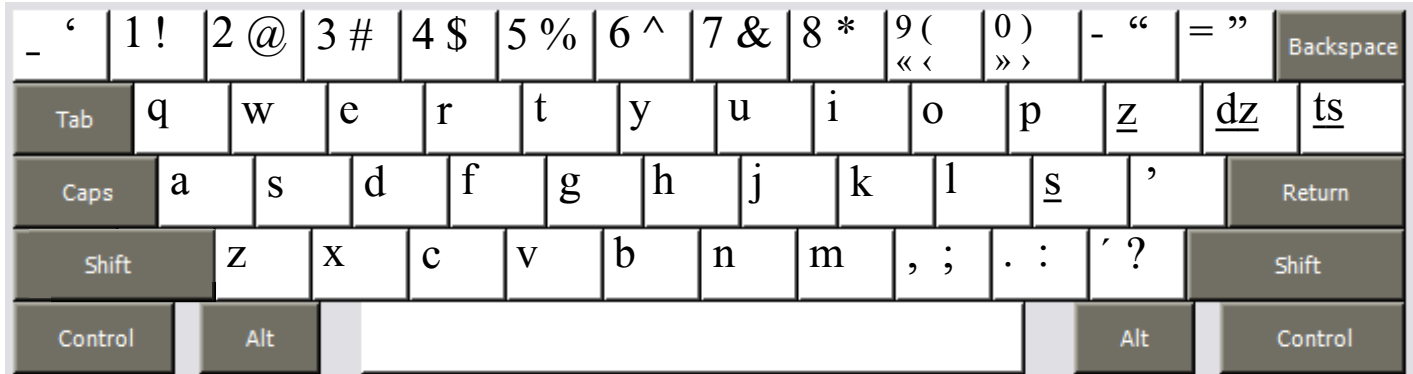

Notes

- All accents are typed after the base character: *á* is typed **a** then **Slash /**.

- To type the acute accent ´, use the **Slash key /**. *é* is typed **e** then **Slash**.

- Each of the four underlined letters has its own key, for example, to type *s̲* use the **Semicolon key ;**. To type the capital versions: *Dz* and *Ts*, hold down the **Shift** key. Mac users can type the all-caps versions: *DZ* and *TS*, with **Caps-Lock** turned on. Windows users do not have this option and must instead use the **Grave key** ` to type an underline accent for the all-caps versions. Always use these keys to type the underline accent, **never** use your word processor's underline formatting function.

- All changed punctuation can type their original value by holding down the **Right-Alt** or **Option key**. The *Left Bracket* **[** is typed **Right-Alt+Left-Bracket** (Windows) **Option+Left Bracket** (Mac).

- Opening and closing quotes. For Mac users, Right-Alt is either of the Option Keys.
    - single: ' Shift-Grave — ' Apostrophe
    - double: " Shift+Hyphen — " Shift+Equals
    - single ‹ Right-Alt+Shift+9 — › Right-Alt+Shift+0
    - double « Right-Alt+9 — » Right-Alt+0
