Notes

- All accent marks are typed after the base character — *á* is typed **a** then **Backquote** `
- To type the acute accent ´ use the **Backquote key** ` — *ó* is typed **o** then **Backquote** `
- To type the háček (wedge) accent ˇ use the **Hyphen key** — *č* is typed **c** then **Hyphen**
- To type the apostrophe accent ´ use the **Apostrophe key** ' — *ř* is typed **p** then **Apostrophe** '
- To type the low-dot accent ˙ use the **Backslash key** \ — *x* is typed **x** then **Backslash** \
- The special Kwináył characters: *č, k, λ, λ, š* and *x* can also be typed by hoding down the Right-Alt or Option key. See the keymap above: where a small character is on the right side of the key, it is accessible with the Right-Alt / Option key.
- The English keyboard's punctuation marks can be typed by holding down the **Right-Alt** or **Option key**. The **Semicolon ;** is typed **Right-Alt+Semicolon** (Windows) **Option+Semicolon** (Mac).
- Opening and closing quotes. For Mac users, Right-Alt is either of the Option Keys.
 - single: ‘ Right-Alt+Shift+7 — ’ Right-Alt+Shift+8
 - double: “ Right-Alt+7 — ” Right-Alt+8
 - single ‹ Right-Alt+Shift+9 — › Right-Alt+Shift+0
 - double « Right-Alt+9 — » Right-Alt+0
